You may have the right to demand that this record is not shared with anyone who is not involved in the provision of your direct healthcare. If you wish to enquire further as to your rights in respect of not sharing information on this record then please contact our Data Protection Officer.

To find out more about the wider use of confidential personal information and to register your choice to opt out if you do not want your data to be used in this way, please visit www.nhs.uk/my-data-choice.

Note if you do choose to opt out, you can still consent to your data being used for specific purposes. However, if you are happy with this use of information you do not need to do anything. You may however change your choice at any time.

7. WHO WE MAY PROVIDE YOUR PERSONAL INFORMATION TO, AND WHY

Whenever you use a health or care service, such as attending Accident & Emergency or using Community Care Services, important information about you is collected to help ensure you get the best possible care and treatment. This information may be passed to other approved organisations where there is a legal basis, to help with planning services, improving care, research into developing new treatments and preventing illness. All of this helps in providing better care to you and your family and future generations. However, as explained in this privacy notice, confidential information about your health and care is only used in this way

where allowed by law and would never be used for any other purpose without your clear and explicit consent.

We may pass your personal information on to the following people or organisations, because these organisations may require your information to assist them in the provision of your direct healthcare needs. It, therefore, may be important for them to be able to access your information in order to ensure they may properly deliver their services to you:

A. Hospital professionals (such as doctors, consultants, nurses, etc.);

B. Other GPs/Doctors;

C. Pharmacists;

D. Nurses and other healthcare professionals;

E. Dentists;

F. Community Services

G. Out of Hours Services

H. Ambulance Services

I. Any other person that is involved in providing services related to your general healthcare, including mental health professionals.

8. OTHER PEOPLE WHO WE PROVIDE YOUR INFORMATION TO

A. Commissioners;

B. Clinical Commissioning Groups;

C. Local authorities;

D. Community health services;

E. For the purposes of complying with the law e.g. Police, Solicitors, Insurance Companies;

F. Anyone you have given your consent to, to view or receive your record, or part of your record.

Please note, if you give another person or organisation consent to access your record we will need to contact you to verify your consent before we release that record. It is important that you are clear and understand how much and what aspects of, your record you give consent to be disclosed.

G. Extended Access – we provide extended access services to our patients which means you can access medical services outside of our normal working hours. In order to provide you with this service, we have formal arrangements in place with the Clinical Commissioning Group and with other practices whereby certain key “**hub**” practices offer this service on our behalf for you as a patient to access outside of our opening hours. This means, those key “**hub**” practices will have to have access to your medical record to be

able to offer you the service. Please note to ensure that those practices comply with the law and to protect the use of your information, we have very robust data sharing agreements and other clear arrangements in place to ensure your data is always protected and used for those purposes only.

The key **Hub** practices are as follows:

- Highfield Surgery, Hemel Hempstead
- The New Surgery, Tring
- Hemel Hempstead Hospital

H. Data Extraction by the Clinical Commissioning Group – the clinical commissioning group at times extracts medical information about you, but the information we pass to them via our computer systems **cannot identify you to them**. This information only refers to you by way of a code that only your practice can identify (it is pseudo-anonymised). This therefore protects you from anyone who may have access to this information at the Clinical Commissioning Group from **ever** identifying you as a result of seeing the medical information and we will **never** give them the information that would enable them to do this.

There are good reasons why the Clinical Commissioning Group may require this pseudo-anonymised information, these are as follows:

- To assist in analysing current health services and proposals for developing future services.
- To develop risk stratification models to help GP's to identify and support patients with long term conditions and to help to prevent un-planned hospital admissions or reduce the risk of certain diseases developing, such as diabetes.
- Using risk stratification to help the CCG to understand the health needs of the local population in order to plan and commission the right services.

NHS Arden and Greater East Midlands Commissioning Support Unit (AGEM) are commissioned by the CCG to carry out this process. The risk stratification tool that AGEM use for this process is called Gemima.

What if I do not want information about me to be included (opt out)?

If you do not wish your data to be included in this process (even though it is in a format which does not directly identify you) you can choose to opt-out. In this case, please inform the Receptionist who will apply an opt-out code to your record to ensure that your information is not included.

9. ANONYMISED INFORMATION

Sometimes we may provide information about you in an anonymised form. If we do so, then none of the information we provide to any other party will identify you as an individual and cannot be traced back to you.

10. YOUR RIGHTS AS A PATIENT

The Law gives you certain rights to your personal and healthcare information that we hold, as set out below:

A. Access and Subject Access Requests

You have the right to see what information we hold about you and to request a copy of this information.

If you would like a copy of the information we hold about you please email our Data Protection Officer. We will provide this information free of charge however, we may in some **limited and exceptional** circumstances have to make an administrative charge for any extra copies if the information requested is excessive, complex or repetitive.

We have one month to reply to you and give you the information that you require. We would ask, therefore, that any requests you make are in writing and it is made clear to us what and how much information you require.

B. Online Access

You may ask us if you wish to have online access to your medical record. However, there will be certain protocols that we have to follow in order to give you online access, including written consent and production of documents that prove your identity.

Please note that when we give you online access, the responsibility is yours to make sure that you keep your information safe and secure if you do not wish any third party to gain access.

C. Correction

We want to make sure that your personal information is accurate and up to date. You may ask us to correct any information you think is inaccurate. It is very important that you make sure you tell us if your contact details including your mobile phone number has changed.

D. Removal

You have the right to ask for your information to be removed however, if we require this information to assist us in providing you with appropriate medical services and diagnosis for your healthcare, then removal may not be possible.

E. Objection

We cannot share your information with anyone else for a purpose that is not directly related to your health, e.g. medical research, educational purposes, etc. We would ask you for your consent in order to do this however, you have the right to request that your personal and healthcare information is not shared by the Surgery in this way. Please note the Anonymised Information section in this Privacy Notice.

F. Transfer

You have the right to request that your personal and/or healthcare information is transferred, in an electronic form (or other form), to another organisation, but we will require your clear consent to be able to do this.

11. THIRD PARTIES MENTIONED ON YOUR MEDICAL RECORD

Sometimes we record information about third parties mentioned by you to us during any consultation. We are under an obligation to make sure we also protect that third party's rights as an individual and to ensure

that references to them which may breach their rights to confidentiality, are removed before we send any information to any other party including yourself. Third parties can include: spouses, partners, and other family members.

12. HOW WE USE THE INFORMATION ABOUT YOU

We use your personal and healthcare information in the following ways:

A. when we need to speak to, or contact other doctors, consultants, nurses or any other medical/healthcare professional or organisation during the course of your diagnosis or treatment or on going healthcare;

B. we participate in the *My Care Record* programme to help ensure that health and care professionals directly involved in a patient's care have access to the most up-to-date information about them.

My Care Record will provide health and social care professionals directly involved in your care, access to the most up-to-date information about you and will provide better, joined-up care for our patients in west Hertfordshire.

Currently, you will be asked at the point of treatment whether your information can be accessed by a clinician or health and care professional. *My Care Record* does not share your record, but provides health and care clinicians and professionals' access to view information relevant to your care and treatment. Allowing access to your record will ensure that health and social care professionals have an overview of your care in order to make the best decisions about your diagnosis and treatment.

You can opt out, but this will mean we won't be able to see your history (eg what medications you are on or what long term conditions you have) to provide the best possible care. You are in control and can change your mind at any time to limit who accesses your information and for what time period. Third parties, private companies or health and care staff not directly involved in your care will NOT be able to access your record.

Further information about *My Care Record* can be found on our practice website.

C. when we are required by Law to hand over your information to any other organisation, such as the police, by court order, solicitors, or immigration enforcement.

We will never pass on your personal information to anyone else who does not need it, or has no right to it, unless you give us clear consent to do so.

13. RESEARCH PROJECTS

We are part of a network of General Practices in Hertfordshire who host medical research on a regular basis. Patients registered with this practice have an opportunity to help shape the future of health care by taking part in research projects. From time to time we may invite you to participate in a research project. Contacting you in this way we consider to be a "Public Task" (see below). However, you will not be enrolled to participate in a research project without your explicit consent.

14. LEGAL JUSTIFICATION FOR COLLECTING AND USING YOUR INFORMATION

The Law says we need a **legal basis** to handle your personal and healthcare information.

CONTRACT: We have a contract with NHS England to deliver healthcare services to you. This contract provides that we are under a legal obligation to ensure that we deliver medical and healthcare services to the public.

CONSENT: Sometimes we also rely on the fact that you give us consent to use your personal and healthcare information so that we can take care of your healthcare needs.

Please note that you have the right to withdraw consent at any time if you no longer wish to receive services from us.

LAW: Sometimes the Law obliges us to provide your information to an organisation (see above).

PUBLIC TASK: Sometimes we have reason to perform a task in the public interest, which has a clear basis in law.

PUBLIC INTEREST: Where we may need to handle your personal information when it is considered to be in the public interest. For example, when there is an outbreak of a specific disease and we need to contact you for treatment, or we need to pass your information to relevant organisations to ensure you receive advice and/or treatment;
