## Salaried GP

### Tring Surgery, Hertfordshire

Due to an upcoming retirement and the recent expansion of our surgeries we are now looking for a highly motivated GP to join our clinical teams our Tring Surgery. We are a very friendly, high achieving and dynamic training Practice based. Located in the Chilterns Area of Outstanding Natural Beauty in the market towns of Tring, Berkhamsted and Markyate, our surgeries are within easy reach of Aylesbury, Hemel Hempstead, Chesham, Dunstable and Luton.

We are within easy access to the M1 and M25 motorways, and close to local rail links to London.

The Practice works as one team across our 5 sites, which gives us resilience and strong mutual support. GPs are based at one main site. Our GP lead triage for same day requests has transformed our GP working day to be one of the best we know of.

- |   |                                      |
|---|--------------------------------------|
| • GP Training Practice                                      | • PCN Lead Practice                  |
| • Individual GP patient list - maintains continuity of care | • GP lead triage for urgent requests |
| • Supported & mentored                                      | • Competitive and progressive salary |
| • Open, leaning culture                                     | • No Duty GP                         |

To arrange an informal site visit, informal chat with one of our GP Partners or Group Practice Manager, or for further information - please contact Steve Sharpe, Group Practice Manager. Please send your CV with covering letter to [RHG.HRandLeaning@nhs.net](mailto:RHG.HRandLeaning@nhs.net)

## Accomplished Compassionate Empowered

*At the heart of everything we do you'll find our ACE values – our principles, standards and behaviours we abide by to deliver the best care possible for our patients*

### Development

To empower our staff we support personal and team development. Our staff take responsibility for themselves and others.

### Learning

We encourage all staff to "speak-up". We strive to learn and improve so we deliver the safest and most effective healthcare to our patients.

### Encouraging

We believe everyone matters. We recognise the efforts others make. We go the extra mile to help our patients

### Respectful

We recognise the value that individual differences bring. We welcome views, listen and being honest. Staff are respectful to all other staff, patients and themselves.

### Team

We are a single team. We support and help each other. We are responsive, adaptable and professional.

## Caring Respectful Continuity

*At the heart of everything we do you'll find these values – our principles, standards and behaviours we abide by to deliver the best care possible for our patients*

### Named GP

We provide Continuity of Care, each patient has a named GP that oversees their care. Patients GP Appointments will normally be with their Named GP.

### Multi-Disciplinary Team

Patients are seen by the most relevant clinician in our healthcare team to ensure they receive the most effective care in a timely manner.

### Listening

Understanding each patient's health goals and managing this together. We work with our Patient Participation Group to develop our services.

### Accessible

We strive to be as accessible as possible to all our patient groups. Patients choose their preferred type of consultation (in person, telephone etc).

### Innovative

We strive to be innovative and to use the latest medical developments to improve access for patients and to improve Patient Care.
